A happy day

Yesterday was Sunday. It was sunny. Amy went on a picnic in Sai Kung Country Park with her family. They went there by bus.

Amy was playing badminton with her brother. Her mother was eating sandwiches. Her father was taking photos.

Suddenly, some bees came out from a beehive. They were afraid. Amy's father used the badminton racket to hit the bees. Finally the bees went away. They were very excited.

New Magic Science Museum Story

In the morning, I go to the Science Museum by car.

On the first floor, I play on the computer. A shark swims out. On the second floor, I eat ice cream in the canteen. On the third floor, I see some dinosaurs. They kiss me. Then I see some funny mirrors in the mirror room on the fourth floor. I look in them. I see a dancing panda. On the fifth floor, I touch the picture in the picture room. Some birds and butterflies fly out.

I feel scared. I touch the picture again. The Science Museum is lovely.
