

Saving the Prince

Once upon a time, a girl called Helen lived in a small village. One day, she found an egg in the forest. She went near the egg and the egg cracked suddenly. It was a baby dragon inside the egg. The baby dragon grew up into a large dragon very fast. "Wow! The dragon is as tall as a mountain!" she thought.

At that time a wizard appeared and talked to Helen. "The prince is trapped by an evil witch in the witch tower. Go and save him!" he said. Then he disappeared. Helen asked the dragon, "Shall we go and save the prince?" "Sure. I like helping people," the dragon replied. Then Helen jumped onto the dragon's back and flew together. On the way to the witch tower, the wizard appeared again. He rumbled, "The prince will be killed by the witch within two hours. You need to be quick." Then they flew faster and faster.

Suddenly, a big monster appeared when Helen almost reached the tower. The monster was fierce like a tiger. They fought for an hour. The monster lost. Helen and the dragon continued the journey. The dragon flew fast like a rocket. A few minutes later, they arrived at the tower. The witch locked the prince in a room. The dragon opened its mouth and blew off a cloud of fire. The witch melted immediately. They saved the prince.

In the end, Helen and the prince became good friends. The dragon left them and continued to help the people in need.

Nosy Aliens from Space

In the mysterious space, there is a planet called Wonderful Planet. This planet is smaller than the Earth but it looks almost the same as the Earth.

In Wonderful Planet, there was a little boy called Ben and he was very nosy. When the people in Wonderful Planet saw him, they would run away because they were afraid that Ben would play tricks on them. So, Ben has no friends there.

One day, the king in Wonderful Planet sent Ben's father to investigate the Earth because he was a scientist. Ben was very curious about the Earth so he secretly followed his father onto his spaceship.

When they arrived the Earth, Ben drove his small spacecraft to Hong Kong. 'Wow! This city is so beautiful! I love Hong Kong.' said Ben. 'But there are too many people. Oh! Let me "play" with them. Ha ... Ha ... Ha ...!'

Ben started playing his nasty tricks. First he ran on the rooftops. Then he drew on people's faces. After that, he put things on the road so that people couldn't walk. 'Stop, Alien. Don't play tricks on us, please. I saw everything you did. You are doing bad things to us,' said a little boy called Alex.

'I ... I ... I ... just wanted to make some friends here,' said Ben. 'I can be your friend but don't play tricks on us anymore, OK?' asked Alex. 'Oh, really? OK!'

Then Alex took Ben to different places in Hong Kong. 'Oh, no! It's time for me to go. I'm sorry, my friend. I will come back,' said Ben. Alex felt sad.

Island Surprise

Derek and his brother Ken wanted to look for treasure on an island. It was a sunny day. They took a boat there. Derek was looking at the map and Ken was sailing the boat. Derek said, "The weather is nice. I think we can find the treasure today."

Within minutes, there was a storm. It was raining heavily. The waves were huge. The huge waves hit their boat and they fell into the sea. The boat was broken so they swam to the island. Ken said, "Oh no! What can we do? I am so hungry and thirsty." Derek was calm and replied, "Don't worry, Ken. I think we can stay here. Let's find some food and water now."

They walked and walked. Soon, they found some water but they could not drink it because it was too dirty. They wanted to seek help but they could not find any people. They were disappointed and cried loudly. They thought they were going to die there.

All of a sudden, Derek found the treasure next to a coconut tree. He opened the treasure box and saw some bread and soft drinks. He shouted, "Ken, Look! I found some food and drinks in the treasure box!" Ken shouted, "Hurray! We are safe!" They ate the food quickly. They felt full then. Half an hour later, a big ship came and rescued them. They were happy because they did not need to stay on the island.
